

# iGuzzini Compatible Retrofit GT

Tasked with creating a bespoke gear tray for an existing iGuzzini fitting, our technical team rose to the challenge by developing an elegant solution that seamlessly integrates with the existing iGuzzini body. Not only does our solution fit perfectly within the iGuzzini framework, but it also delivers impressive cost savings.

## Features

- Designed to fit iGuzzini body
- Replaces existing 2D lamps
- 64% Energy Saving
- Bespoke Design
- Maintenance free "fit & forget"
- UK manufactured
- 5 Year warranty

## Applications

- Architectural
- Car Park
- External

## The Problem

The existing fitting was no ordinary streetlight – it was an iGuzzini streetlight. Therefore, the customer required a retrofit gear tray that would seamlessly fit into the existing body.

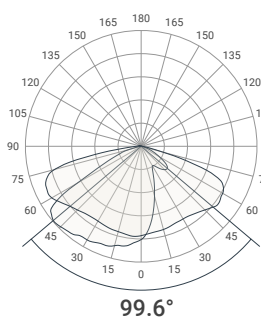

## The Solution

Our unique bespoke solution perfectly fits within the existing iGuzzini floodlight. Replacing the existing 2D fluorescent lamps with new LEDs achieved a 64% energy saving. Our solution was able to achieve the customer's goal of keeping the prestigious iGuzzini body with an upgraded interior.
