- » Tool free installation
- » BS EN 60570
- » 16A rating

Our Highline Rail system is a multifunctional lighting system, ideal for commercial and industrial spaces, retail environments, supermarkets, data centres and offices.

The trunking utilises 'plug and play' connectors that can be joined together with a simple 'click', meaning no tools needed and a hassle-free installation, providing a reliable connection, saving you time and money.

We offer a wide range of accessories, providing ultimate flexibility and allowing you to customise the lighting to your exact requirements.
